

Temoso Mojapelo

Full Stack Developer

About Me

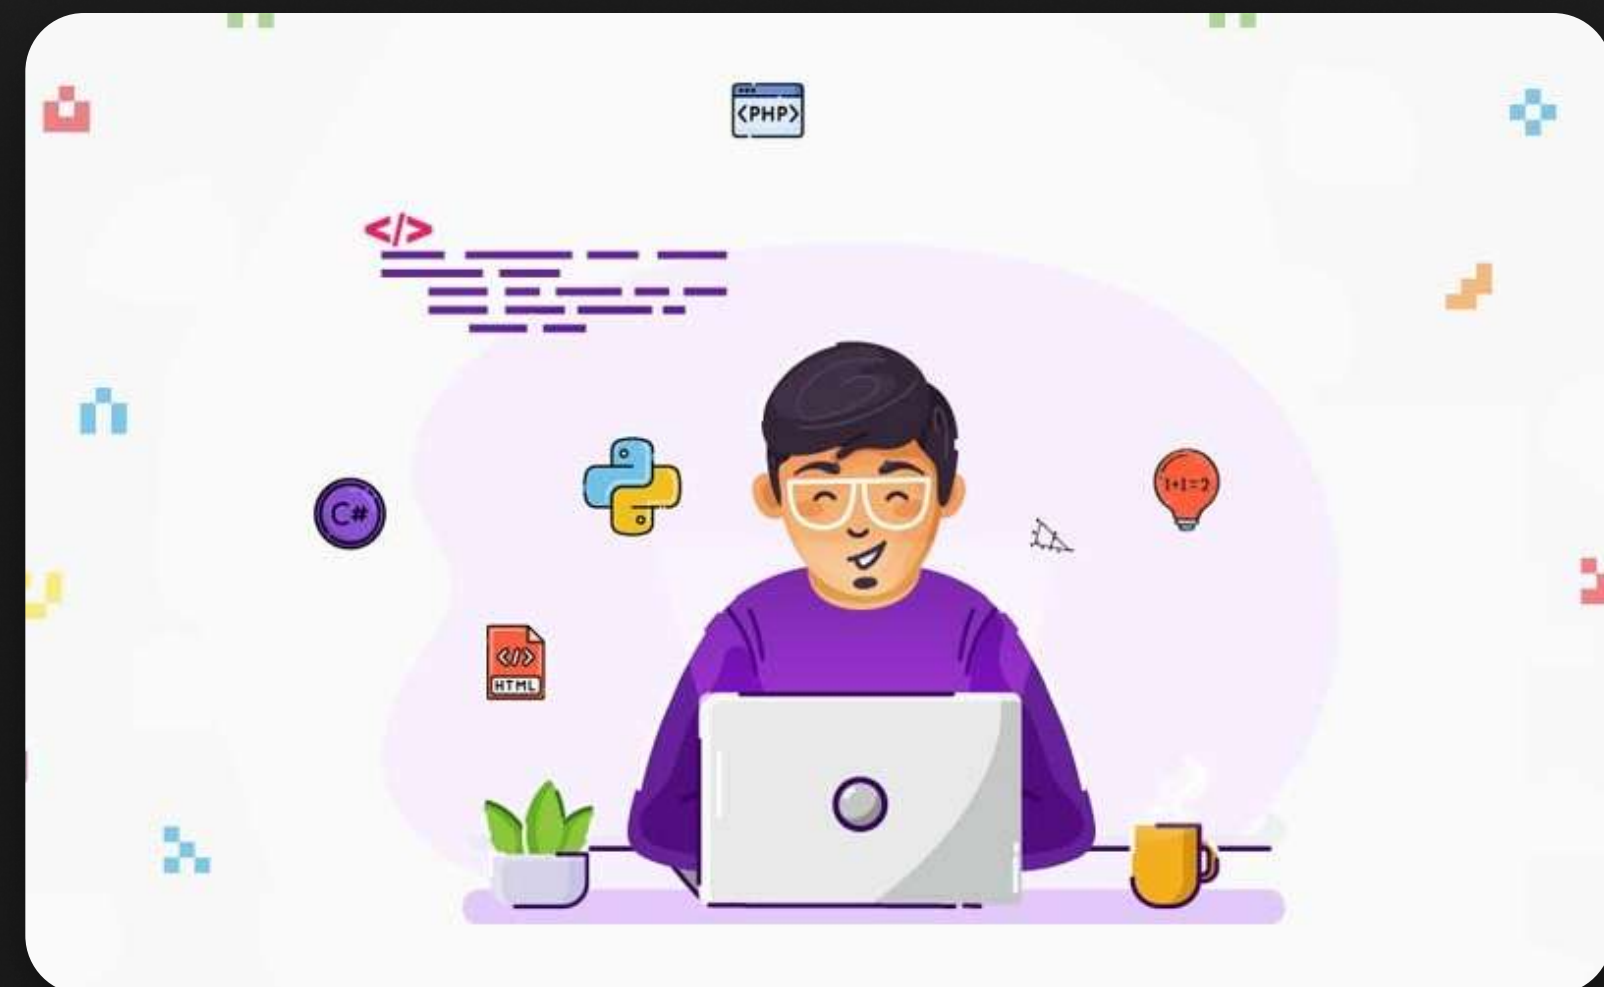

I am a passionate full stack developer and UI/UX Designer with a strong foundation in MERN Stack and Figma. Having worked in the sector for a year, I've developed my abilities to provide scalable, effective solutions that satisfy the demands of modern web applications.

Background

Academic background

- Diploma graduate (NQF 6) in information technology, specialized in multimedia at Tshwane University of Technology.
- Completed grade 12 at Curro Academy Soshanguve
- Currently enrolled in an online web development course in Udemy

Work experience

- I spent a year interning as a multimedia developer at Ferro Digital Studio.
- Started working in the field of 3D animation and proceeded to work as a UI/UX Designer.
- Additionally, I volunteered to work as a frontend developer, which helped me refine my creative web user interface and problem-solving abilities.

Tech Stack Breakdown

Frontend Developer

I use modern web technologies like React, HTML, CSS, and TailwindCSS to create interact and responsive web applications.

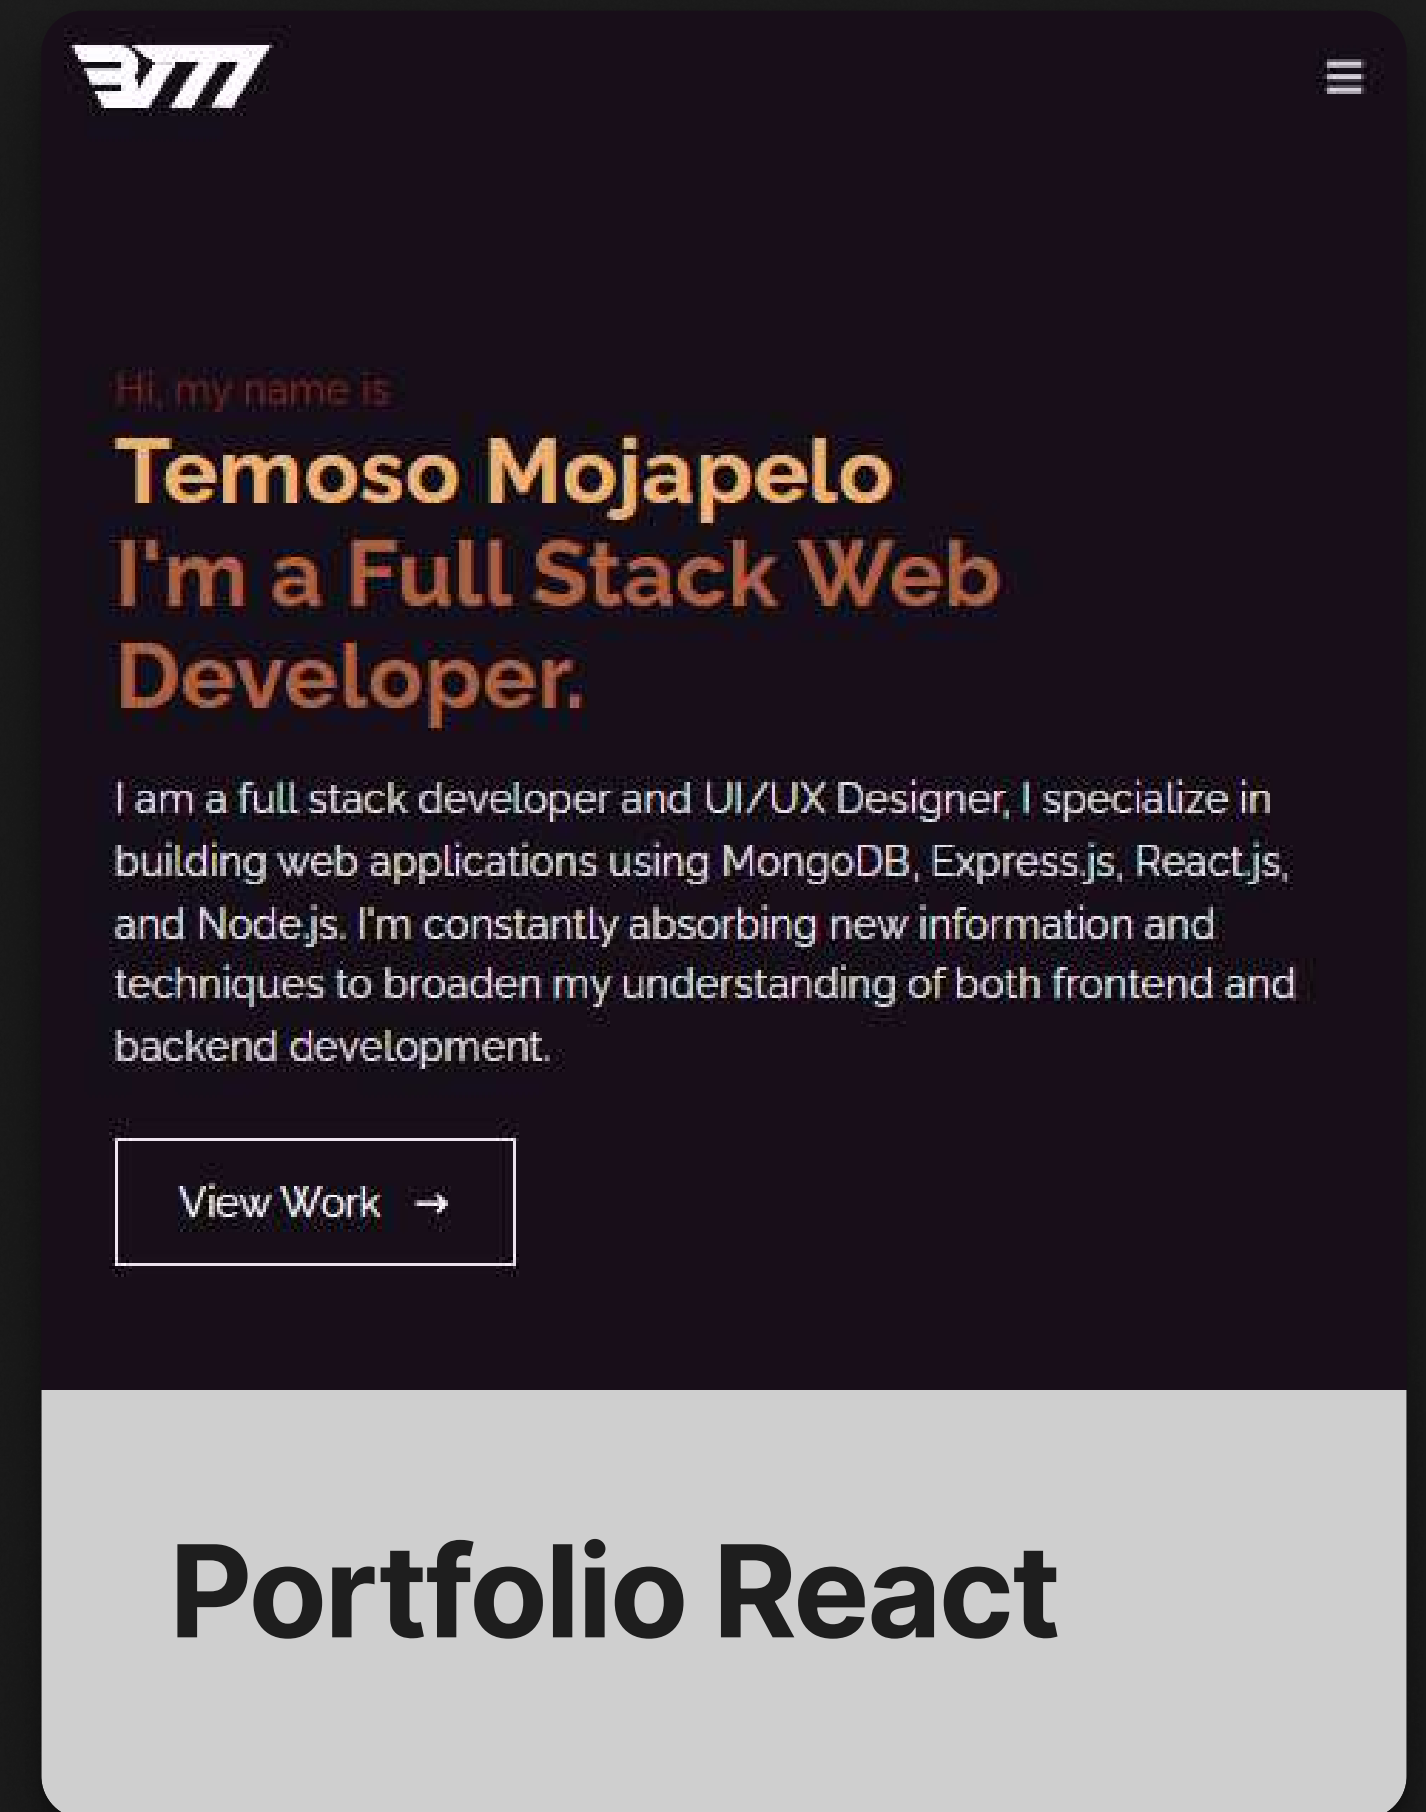

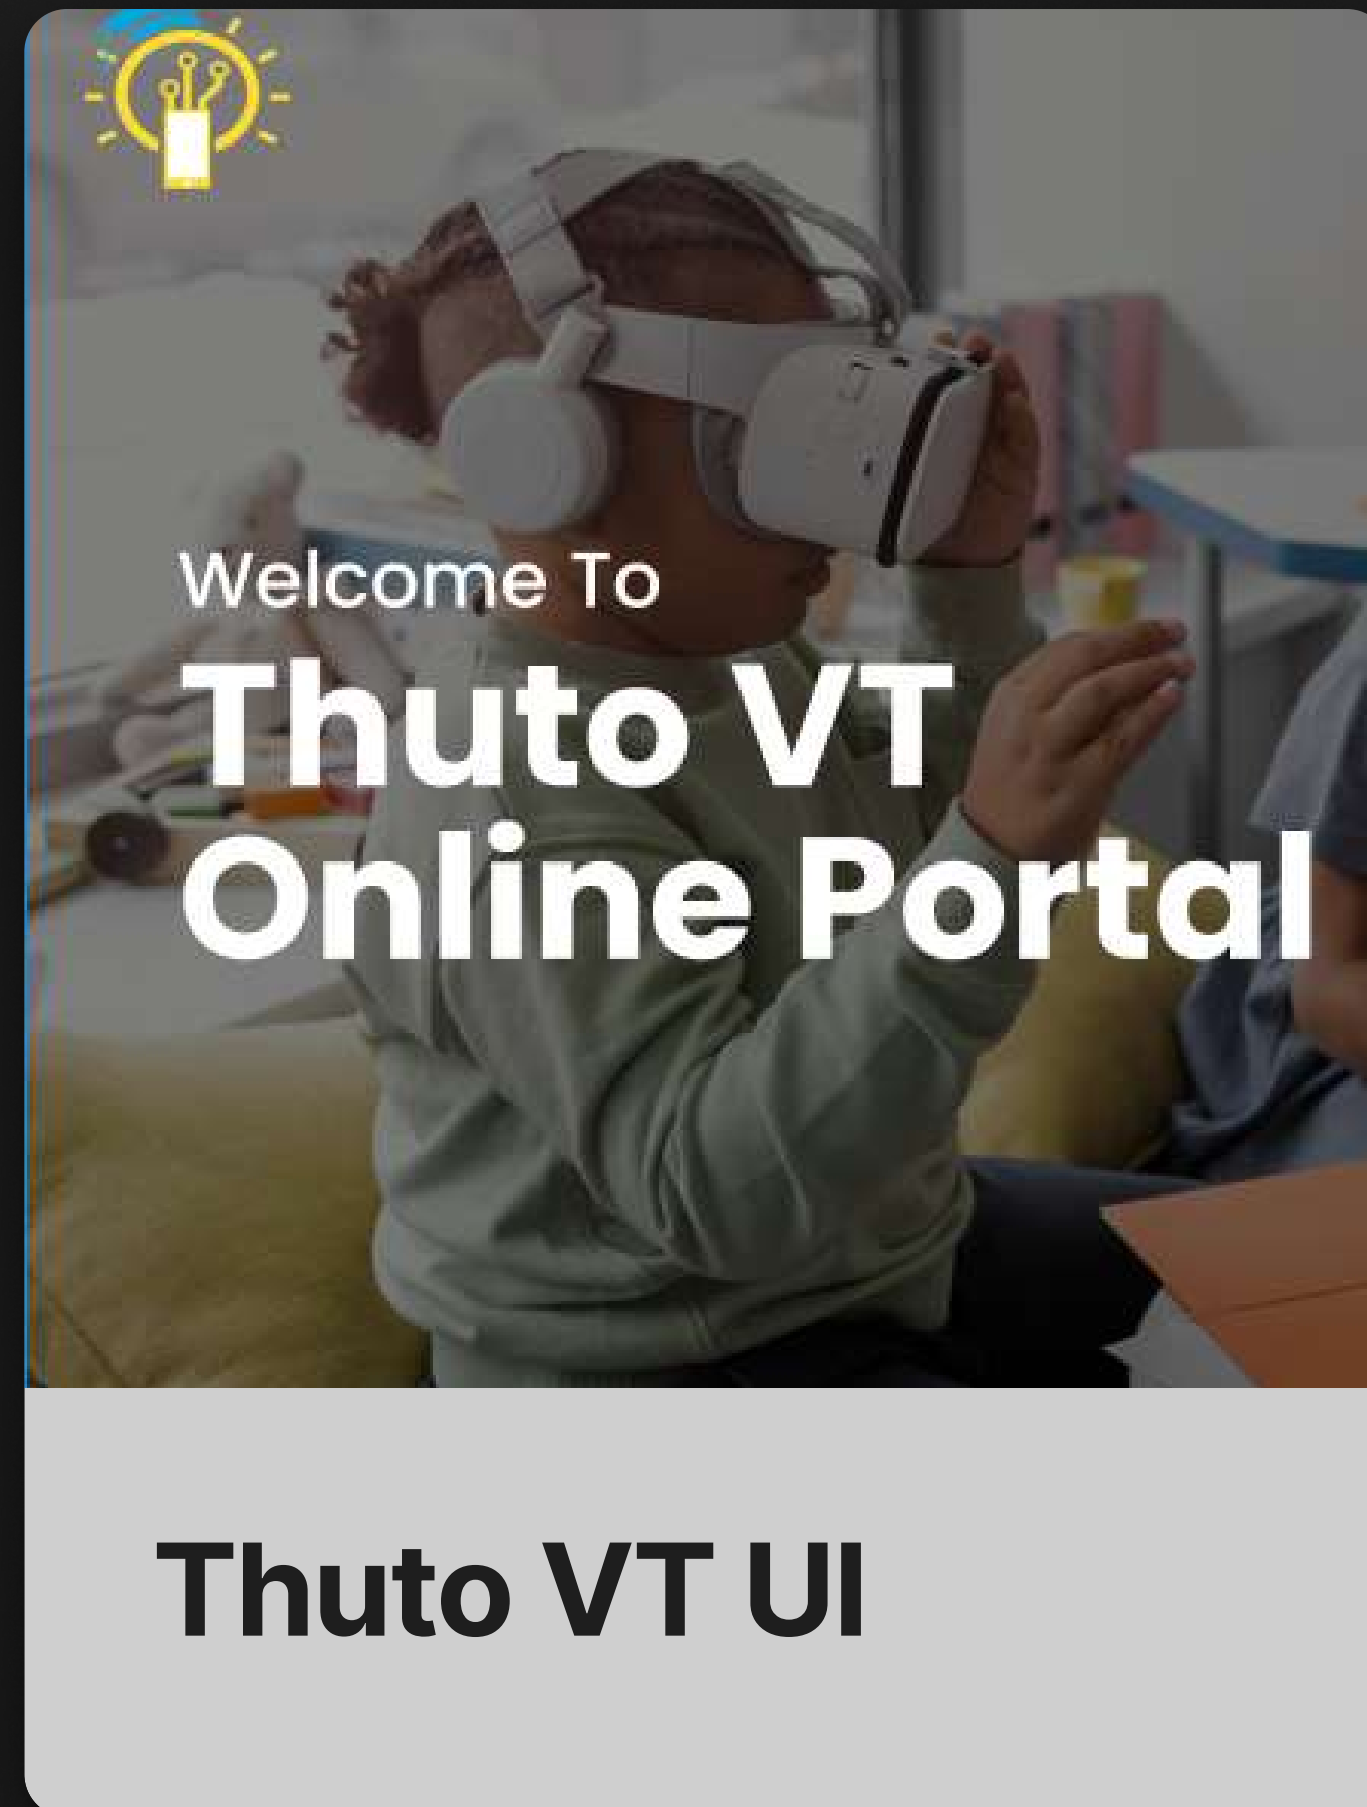

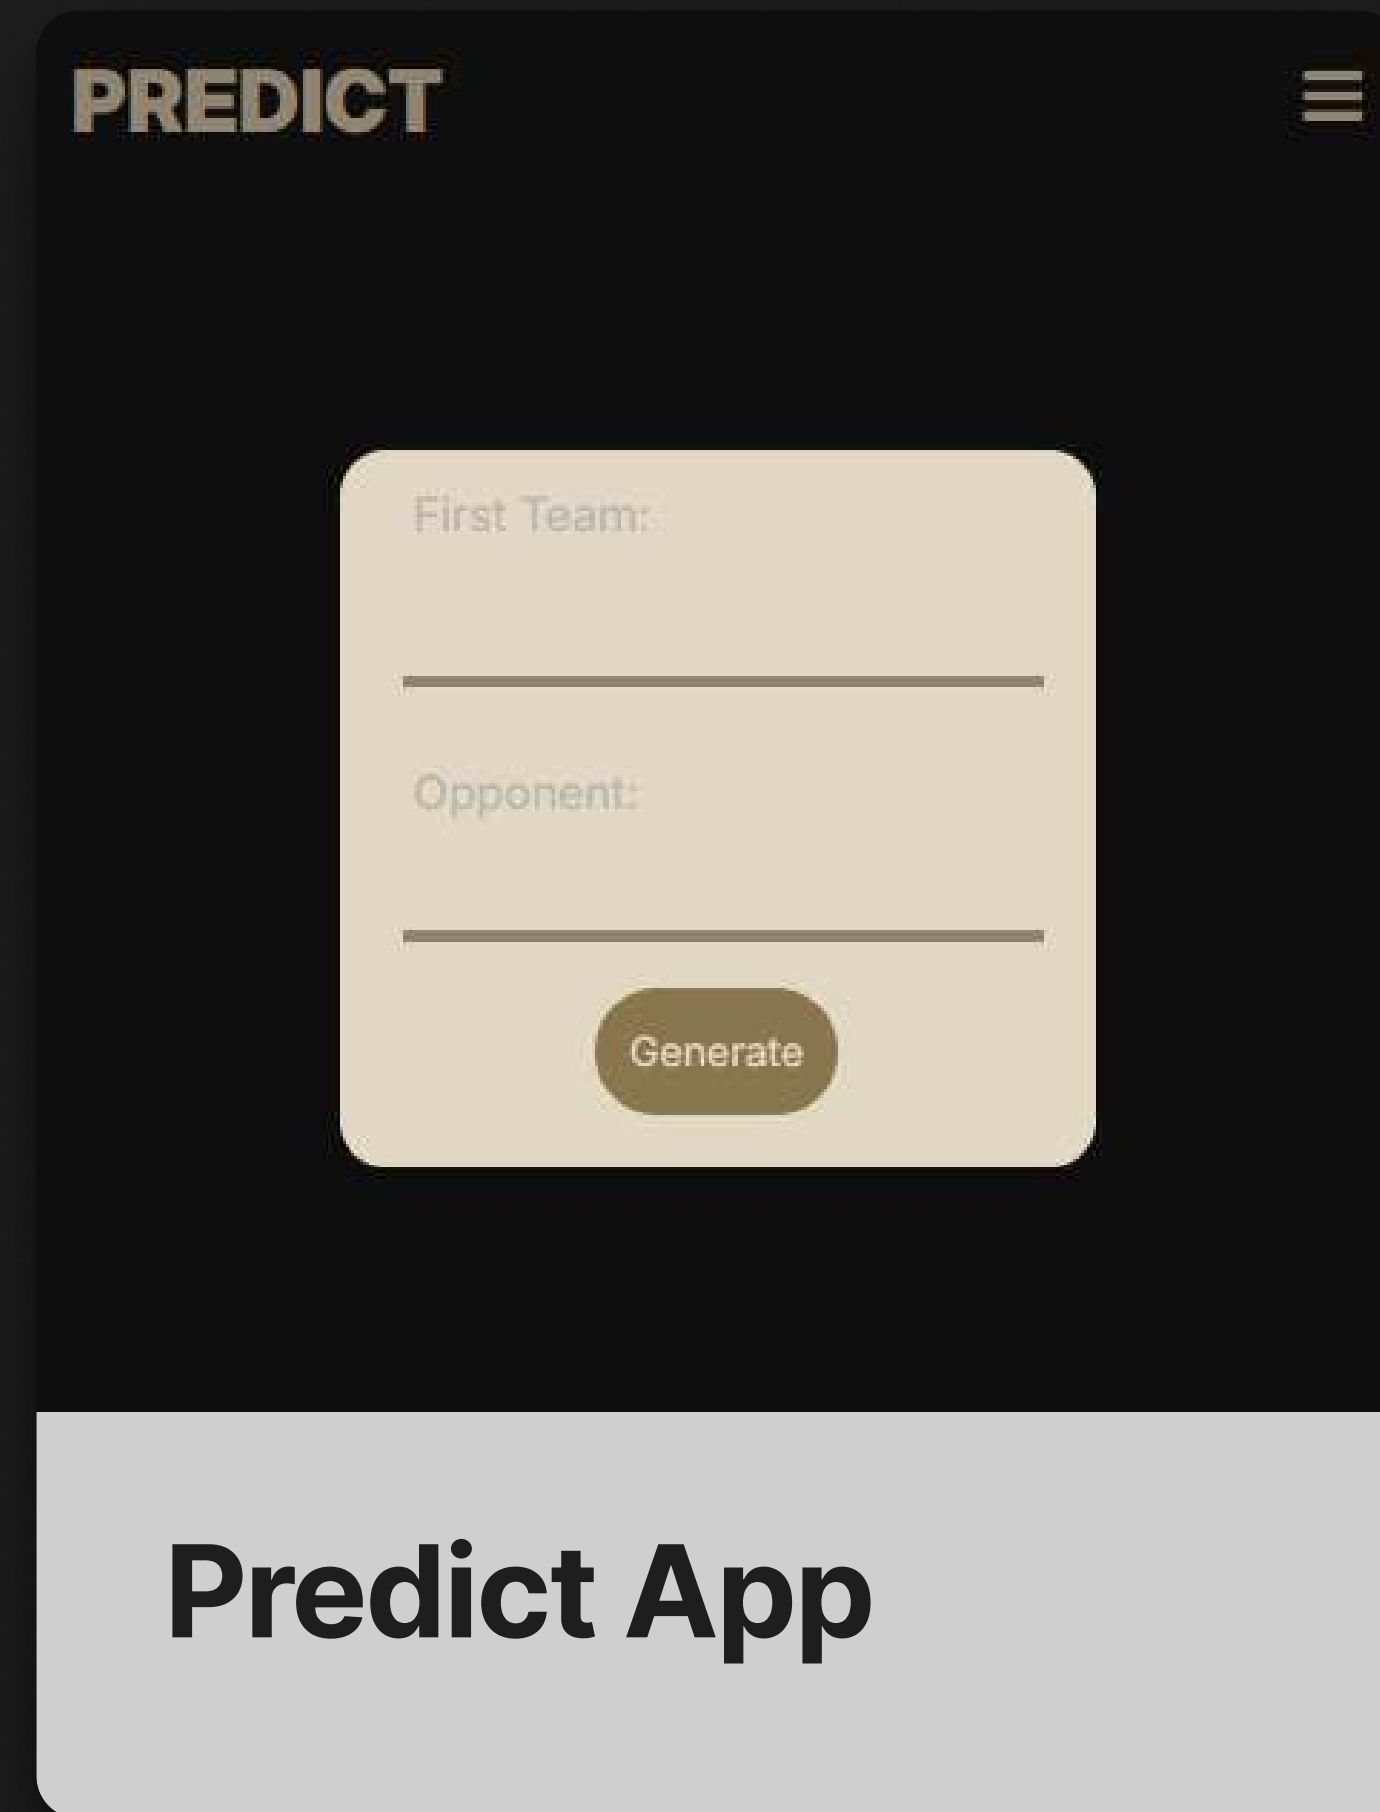

Backend Developer

- Responsible for designing and building server-side applications using Node.js and Express.js.
- I have a thorough understanding of APIs and database management technologies such as MySQL and NoSQL(MongoDB).

UI Designer & UX Researcher

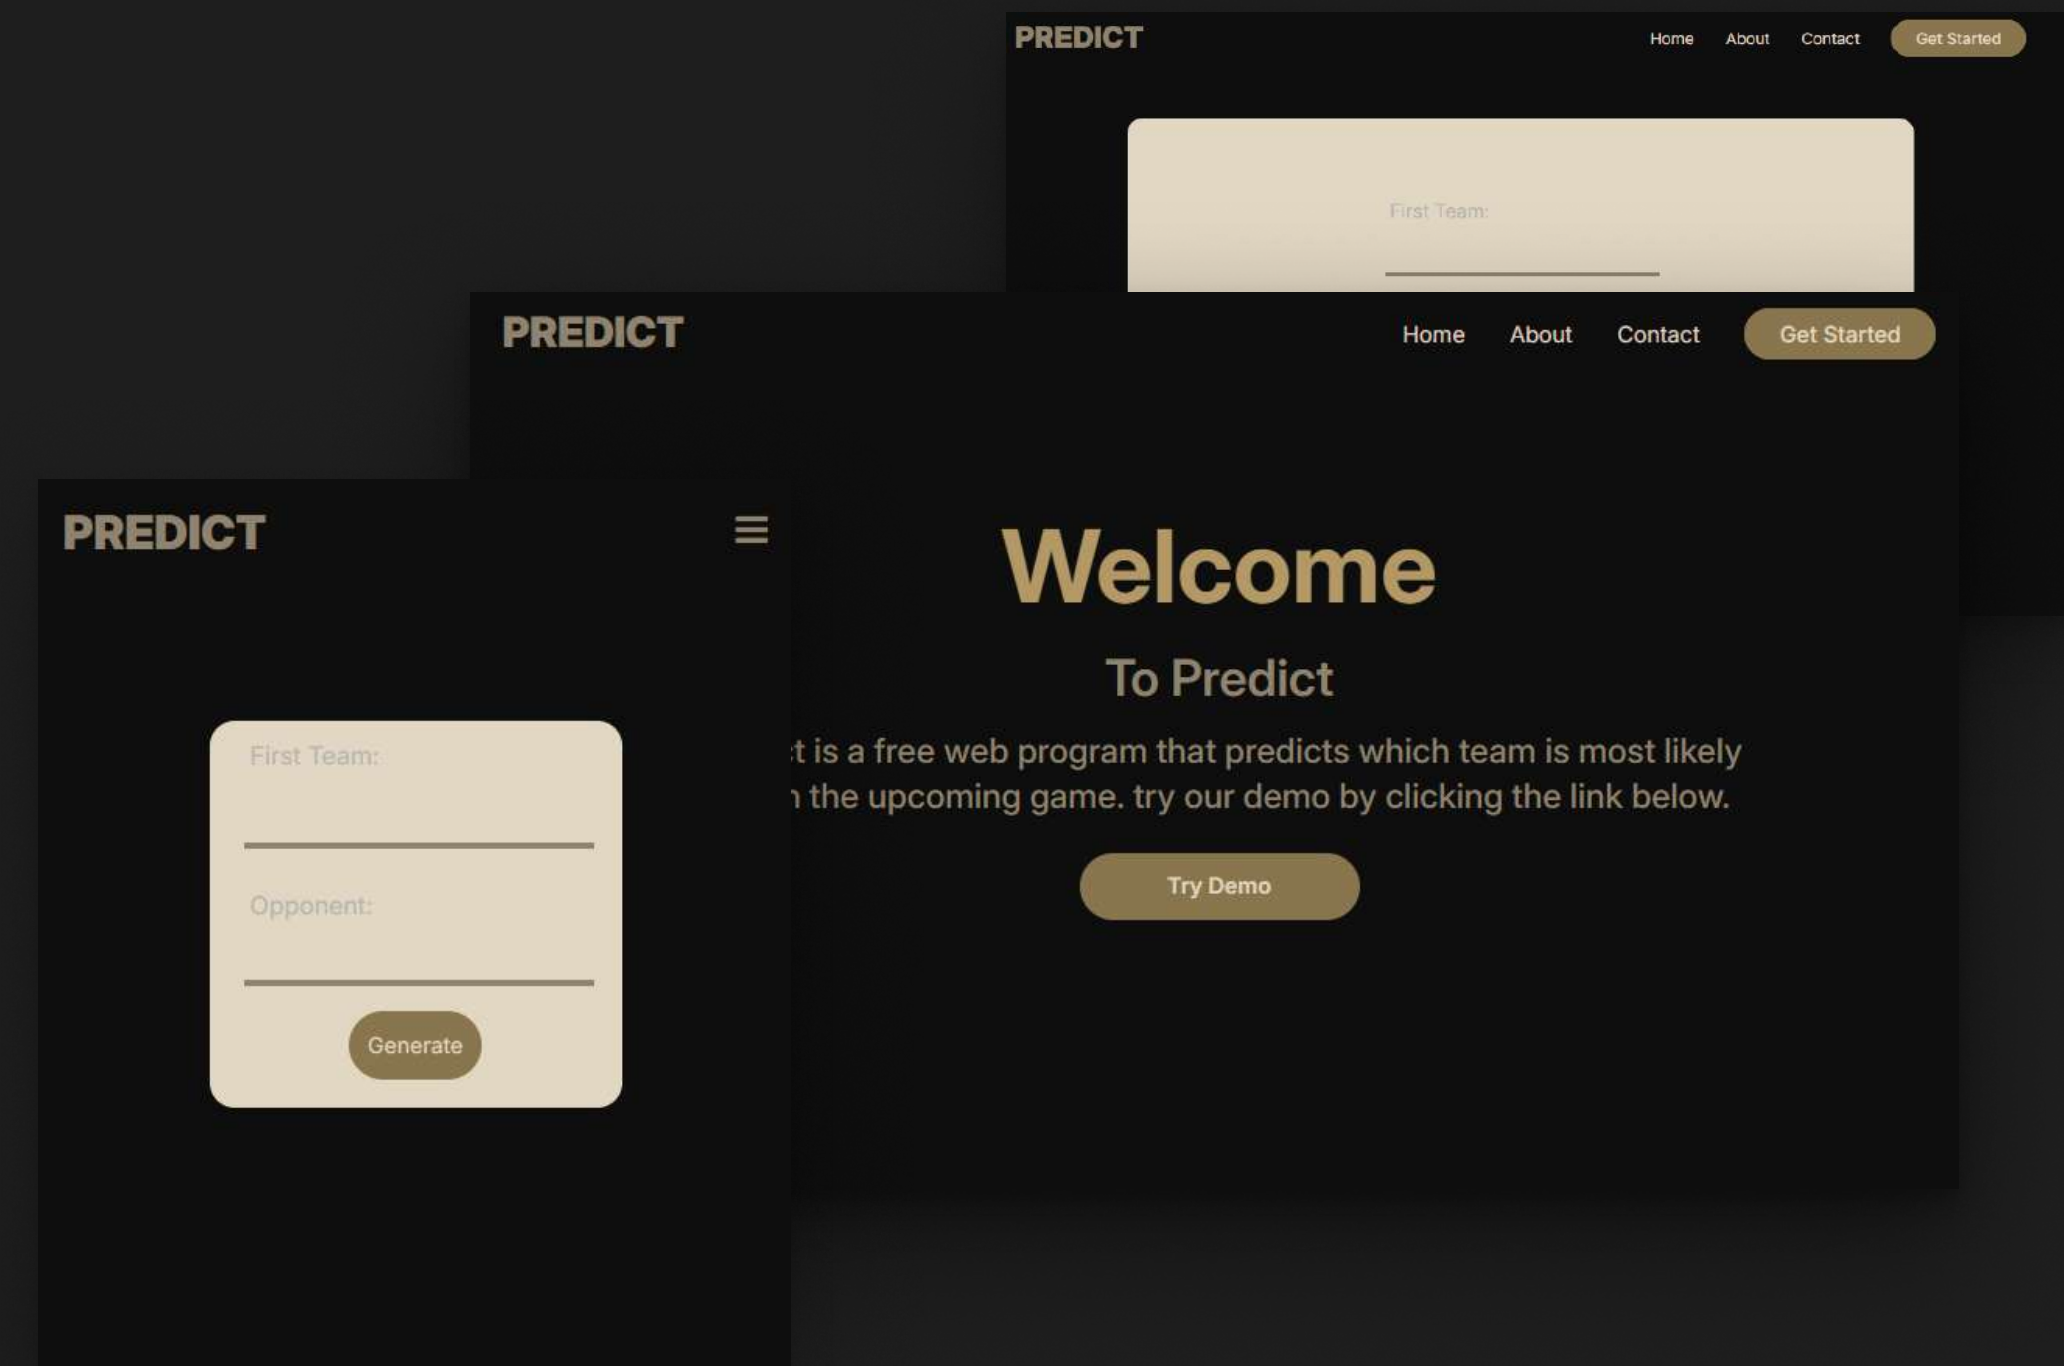

I am proficient with Figma and utilize it to produce sophisticated UI designs, interactive prototypes, and wireframes.

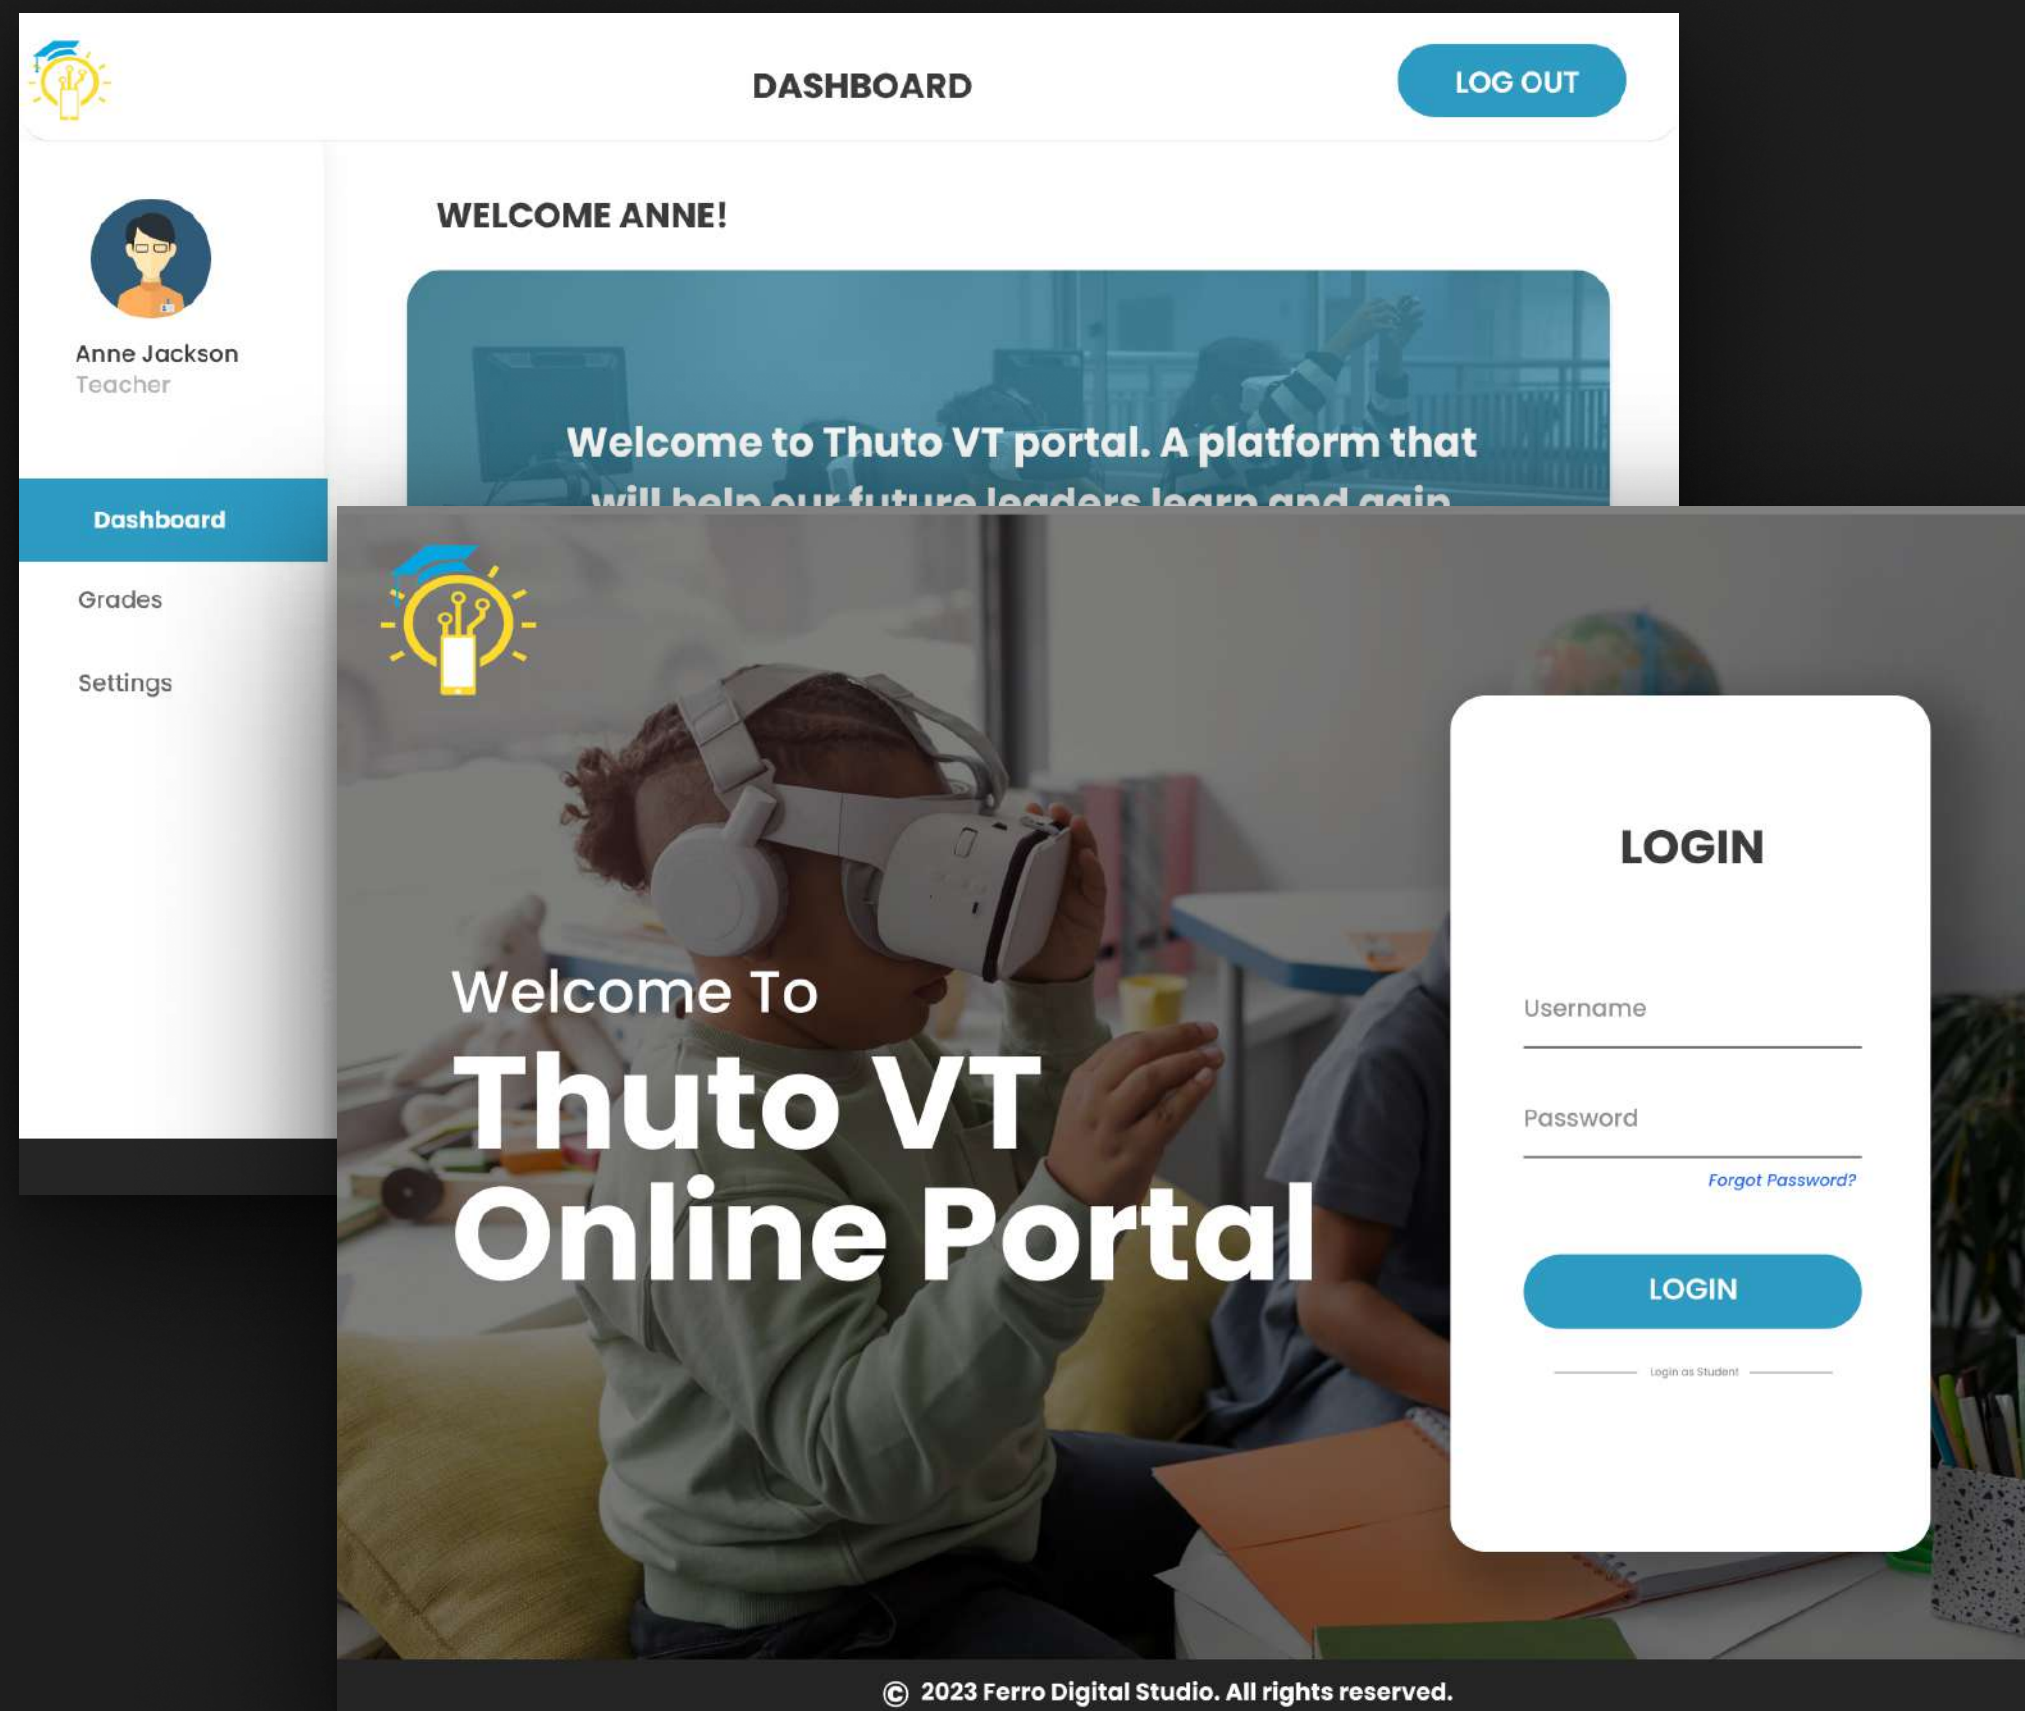

Projects

Predict App

- Predict is a web application that predicts which team is most likely to win the upcoming game.
- Designed using Figma
- Developed using EJS, Node.js, Express.js, HTML and TailwindCSS
- Link: <https://predict-0tf4.onrender.com/>

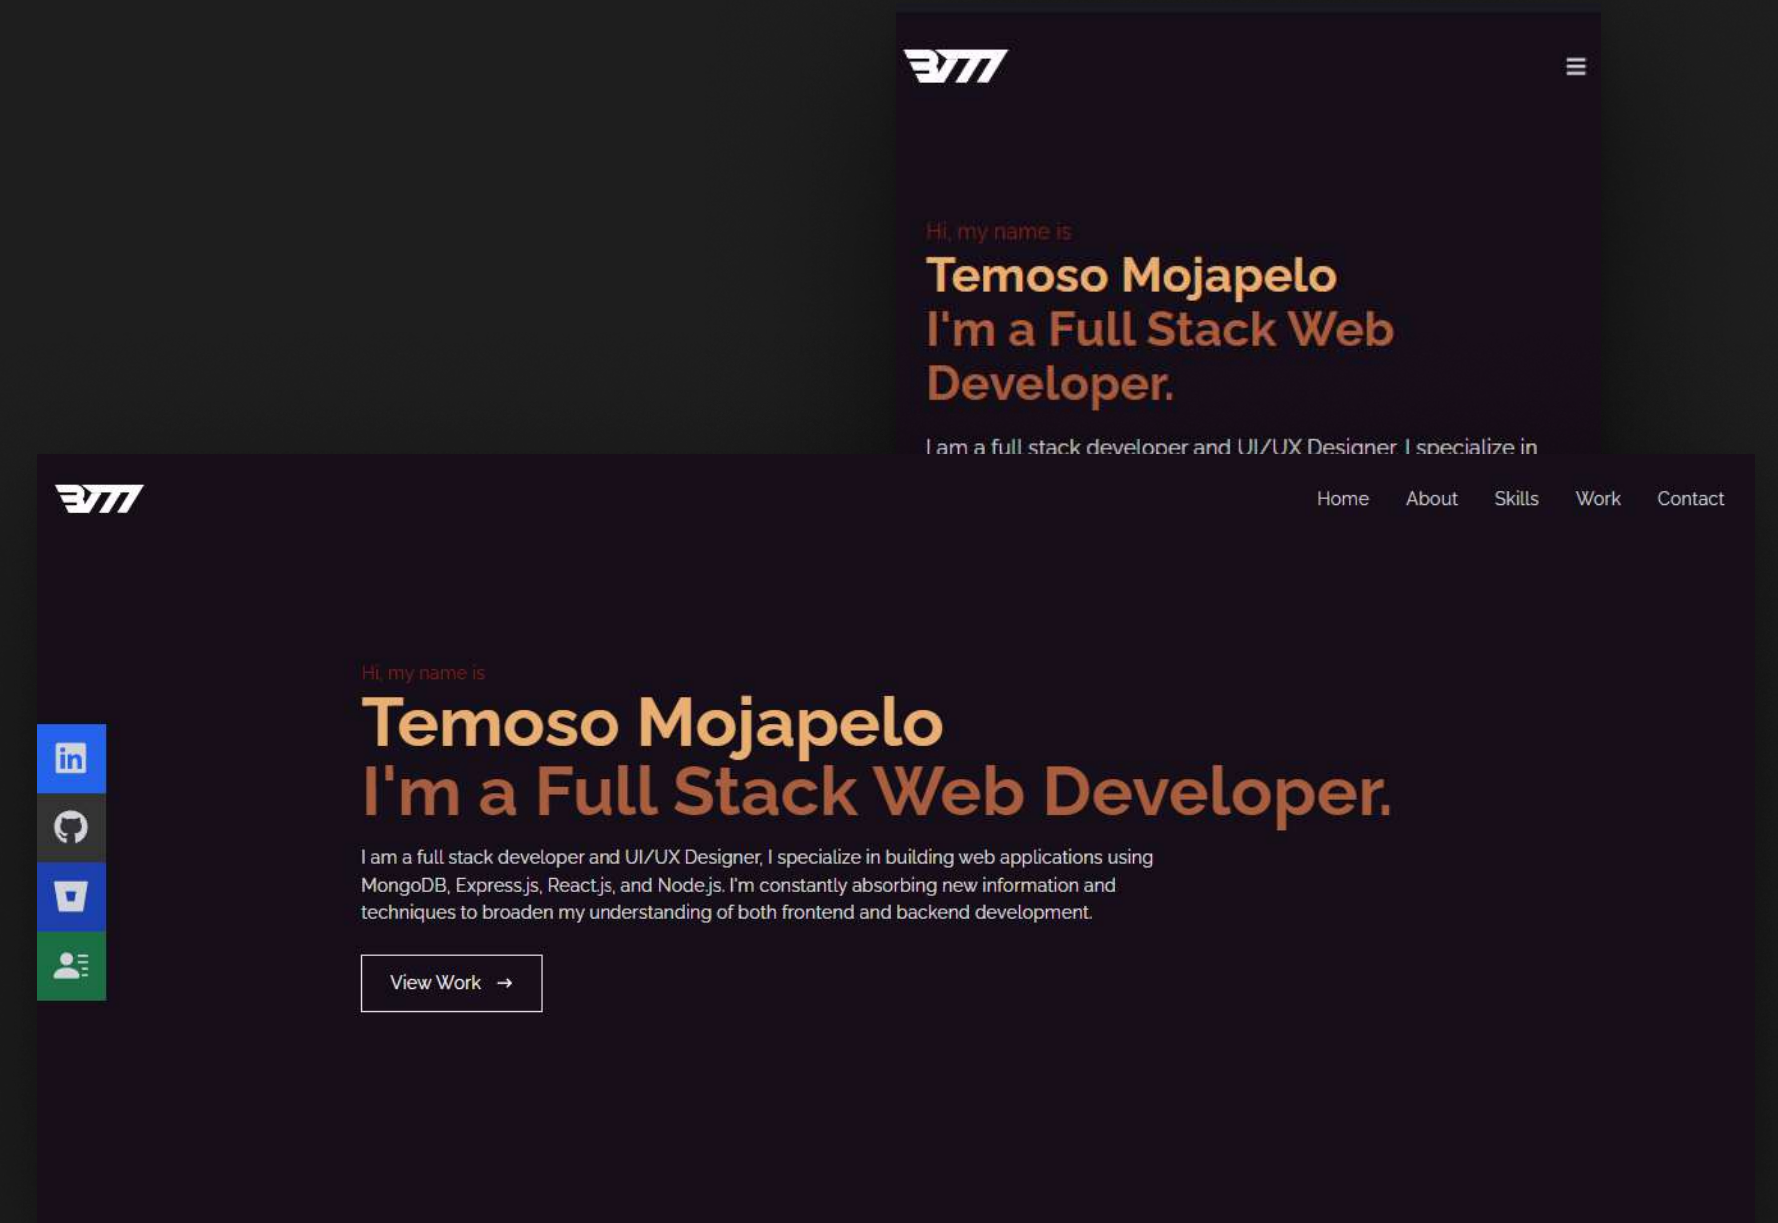

Thuto VT UI

- Thuto VT is an online learning platform that uses various learning styles to improve student learning.
- Designed User Interface and developed prototype for user experience using figma

Portfolio React

- Using TailwindCSS and React.js, I created my first portfolio to make it more responsive and interactive.
- Link: <https://github.com/TEMOSO-MOJAPELO/portfolio-react-app.git>

Goals

- Become an experienced Full Stack Developer with more than 5 years of work experience.
- Progress in UI/UX Development
- Develop new coding abilities, such as mobile application development, and advance in NoSQL (MongoDB).
